

**What We Are Seeking Is Already
Within Us, Part 2
with Marilyn Letsos, RScP
Monday Evenings; 6:30-9:30 pm
March 13-April 10, 2017 (5 weeks)**

In this class we will journey into the infinite realms of our own inner Divine Selves, exploring the power and freedom of living our lives in constant connection with the infinite supply of divine gifts already given! As we explore Science of Mind principles, the activities will be about USING them to create the lives we consciously choose!

While Part 2 continues and deepens material in Part 1, (which is **not** a prerequisite) this class has new emphasis on using the power of prayer, loving ourselves and our lives in the midst of change, and on consciously choosing the perspectives which will take us where we choose to go!

"Educare" is Latin. It means "to bring out what is already there." During my 36 years as an educator, I've been fascinated with addressing all the different ways people learn--and with making the process of bringing out the best in my students exciting and provocative. In my 22 years as a practitioner, actively counseling, mentoring, praying and teaching have deepened my connection with Spirit, honed my skills and ever sharpened my passion for seeing people step into the true, authentic empowered Self and live the life they truly choose to live!

Type: Non-certificated class with no prerequisite. Open to all!
Tuition: \$185 or special pricing of \$160 with a \$50 non-refundable deposit received by February 26th and the full balance paid by the second class.

GGCSL Learning Center, 199 Greenfield Avenue, Upstairs, San Rafael, CA 94901
