

The Mystic and the Physicist

Deirdre Hade is a Modern Day Mystic. A spiritual adept since childhood, Ms. Hade founded Radiance Healing and Meditation in 2007 as a system of mindfulness for our modern time, reaching thousands globally with her Radiance Pure Energy program. Years of deep study into the spiritual traditions combined with a direct perception of what those traditions were alluding to has given her the rare ability to imbue her written words with the wisdom of the ages: past, present, and future.

A Love Affair Where Science and Spirituality Meet

Sunday, September 3, 2017

12:00 - 1:30 pm

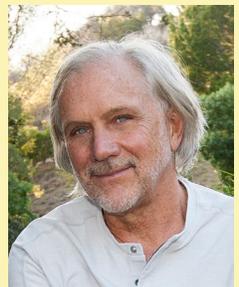

Corte Madera Community Center
498 Tamalpais Drive, Corte Madera
\$20 in advance or \$25 at the door

Physicist and filmmaker William Arntz, creator of *What the BLEEP Do We Know!?*, and mystic and poet Deirdre Hade, founder of Radiance Healing, are presenting the intertwining of Physics and Mysticism as it relates to our world view, our understanding of Reality, and our personal lives.

Join Deidre and Will as they explore how science and spirituality come together in surprising ways on topics such as:

- Magic and Miracles
- Perception
- Who Determines Reality?
- Karma and Newton's 3rd Law
- Can Logic and Paradox Co-exist?
- Radiance
- Quantum Boundaries

Available for purchase after the talk: ***The (not so) Little Book of Surprises.*** This book is a verbal and graphic trip to the unexpected, whimsical, and wise worlds of writer and poet Deirdre Hade and her husband and graphic visionary Will Arntz. Images are provided by award winning photographer Endre Balogh.

William Arntz started his professional career as a research laser physicist, working on "Star Wars" high energy lasers. He then moved on to software, writing "AutoSys"—an automated job control system currently in use by most Fortune 500 companies. When he sold that company he decided to make a film: creating, producing and directing *What the BLEEP Do We Know!?*, an exploration of spirituality, quantum physics, neurology and outrageous possibilities. The film and the companion book were international hits.
